

## **XTRADimension Educational Services: Providing the *Extra Dimension* that Helps Students Succeed!**

### **Services for Educational Institutions:**

XtraDimension Educational Services provides supplementary academic support to CEGEP and university students who require additional resources to achieve their academic and professional goals. We offer:

- Personalized, one-on-one academic advising and career counselling
- Learning skills workshops that improve students' academic performance
- Consulting services relating to all aspects of enrolment management

### **Services for Students:**

XtraDimension Educational Services works with students who are already enrolled in post-secondary institutions, as well as with those contemplating a CEGEP or University degree. The support we provide can be critical to a student's post-secondary academic success. Our general academic and program-specific educational services are available days, evenings and week-ends and include assistance with:

- Transitioning from high school to CEGEP or university, or from CEGEP to university
- Transitioning out-of-province or international students to new schools
- Transferring from one high school, CEGEP or university to another
- Making informed choices based on individual strengths and interests
- Selecting a school, navigating the admissions process and choosing electives
- Gaining admission to a specific school and/or program of study
- Resolving any other academic issues

### **Our Founder and President, Donald Chambers**

Donald Chambers has been providing assistance and guidance to students for over 30 years. He has a BComm in Management from Concordia University and is a member of the National Academic Advising Association (NACADA). Donald's career has included several administrative and managerial positions at Concordia, including Admissions Officer, Academic Advisor and Enrolment Manager.

Immediately prior to launching XDES, Donald was the Director of Student Academic Services (SAS) at Concordia's Faculty of Arts and Science. As Director of SAS, he led a team of 14 professional and support staff members whose role was to provide quality advising and informational services to students on matters relating to admissions, course selection, career counselling, entrance scholarships, international student exchange programs, registration, academic rules and regulations, and more.

Donald founded XDES because he is passionate about helping students discover the programs of study best suited to their individual strengths and interests and ensuring that they achieve their personal, academic and professional goals.

## **Our Team:**

XtraDimension Educational Services consists of a team of professionals whose educational and business backgrounds cover a wide spectrum of degrees, programs, and fields of specialization. Our diverse expertise allows us to provide personalized assistance to every student.

## **Our Mission:**

Working in collaboration with educational institutions, XtraDimension's mission is to provide post-secondary students with accessible, timely and student-friendly assistance and guidance to help them achieve their objectives.

## **Our Strengths:**

- A well-established network of professionals from many CEGEPs and universities
- Extensive academic advising and career counselling experience
- First-hand knowledge of the educational system in Quebec
- Ability to provide personalized, one-on-one attention

## **Recent Projects:**

- Assisted families who were newly located to Montreal with school selection and admission process
- Conducted a series of time management and study skills workshops for first-year student athletes at Concordia University. The format was customized to meet the unique challenges facing this group.
- Provided consulting services in enrolment management to a new unit of a major Quebec university
- Assisted with the launch of a new academic program at a major Quebec university
- Transitioned secondary students transferring to new high schools
- Established a personalized academic tutoring program for secondary students
